

MOUNTING INSTRUCTIONS

Bottleholder 3.0 Pro+

Designed by a goalie – made for goalies

safethenet.ch

QUICK GUIDE

On the goal in 6 steps

1

Hold the Bottleholder with its back against the goal and pass the top velcro strap over the net.

2

Close the top velcro strap firmly over three net meshes. The holder now hangs from the top of the goal.

3

Pass the two lower velcro straps through the net to the back, towards the middle goal post.

4

Behind the net, the straps are ready at the middle goal post.

5

Wrap the straps around the protective padding and the goal post.

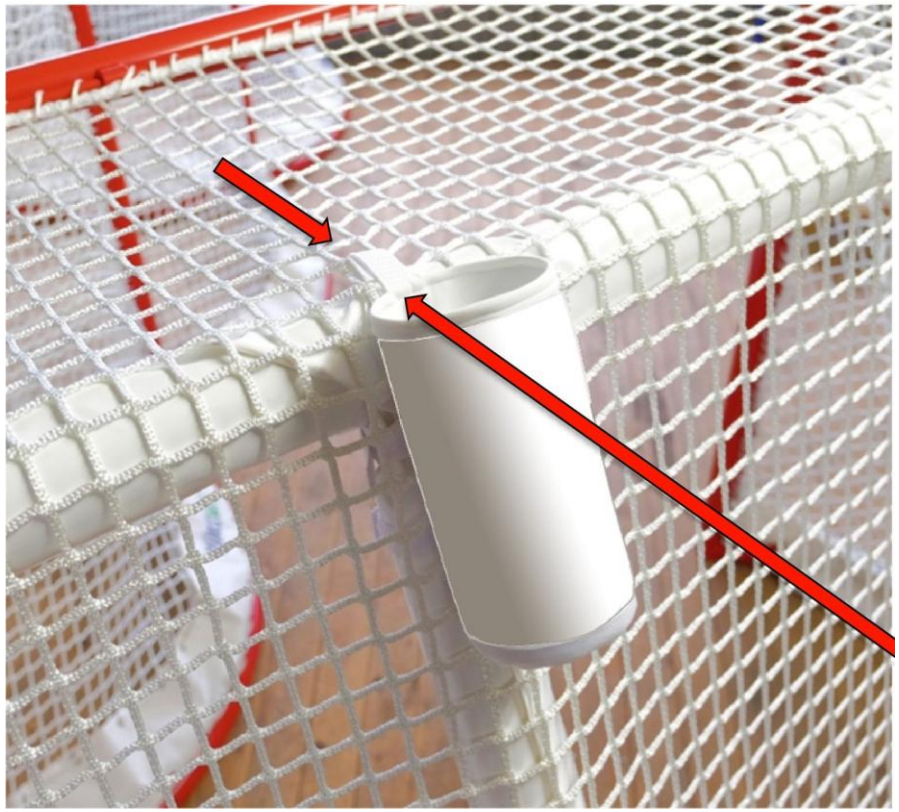

6

Press the velcro straps firmly together. Done, the bottle can go in.

STEP 1

The top velcro strap

The top velcro strap is the most important part of the Bottleholder. It carries the full weight of the sports bottle and keeps the holder from tipping over.

The right way

✓ Close the velcro strap firmly over three net meshes, as shown in the picture.

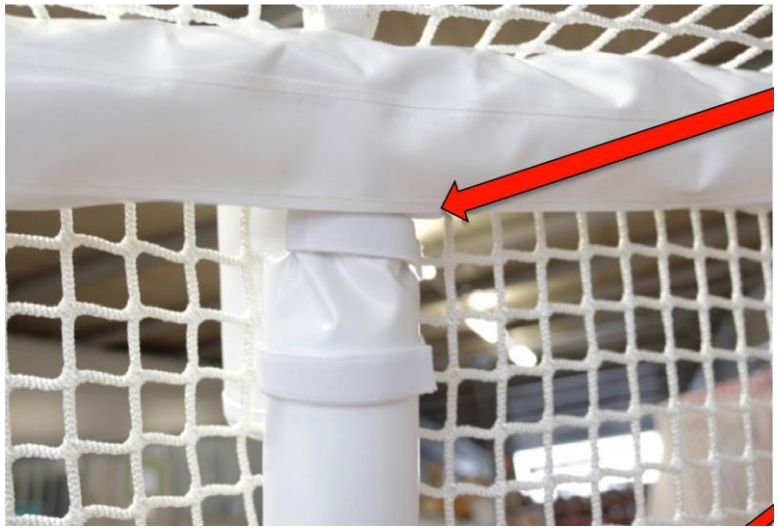

What to avoid

✗ Do not attach the velcro strap below the crossbar.

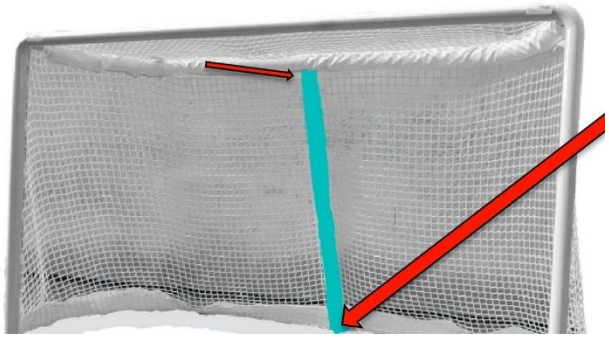

✗ Do not attach the velcro strap too loosely to the net. Otherwise the top strap and the middle band with the velcro straps can be damaged.

STEP 2

Fastening to the middle goal post

A Velcro straps around padding and post

B The padding (blue) must sit flush against the crossbar

The right way

✓ Wrap the lower velcro straps around the protective padding and the middle goal post (picture A).

✓ The protective padding of the middle goal post sits flush against the crossbar (picture B).

What to avoid

✗ Wrapping the straps around the post only, without the padding. The holder then has too much play, it can tip over, and the sewn-on velcro straps can be damaged or torn off.

Tip

Depending on the manufacturer, there may be a gap of 3 to 5 cm at the bottom of the padding. If the padding slides down over time, stick some insulating tape under its lower end (about 1 cm higher). This keeps it in place.

INFORMATION

Good to know

In use at the 2026 IIHF Ice Hockey World Championship in Zurich and Fribourg

Durability: Mounted and used correctly, a Bottleholder lasts at least a full season, often longer.

Suitable bottles: For sports bottles 26 cm and 28 cm tall.

Handmade: Every Bottleholder is sewn by hand in Switzerland from high-quality, durable materials.

Design protection: The 3-point fastening is a registered design in the EU (EUIPO No. 008191886-0001), the USA and Canada.

Warranty and liability: When mounted correctly, the rear velcro straps will not tear. Safe the Net accepts no liability for damage caused by incorrect fastening or improper use.
